The author of the book examines the historical context and the political landscape of the 1960s in America, focusing on the struggles for black equality. The book provides a comprehensive overview of the contributions of African American intellectuals to the current social and political landscape. Written in a accessible and engaging style, it includes biographical profiles of the people and organizations central to the movement. An annotated bibliography is included to guide readers to the most important print, electronic, and media resources suitable for further study.

The book also discusses the impact of the civil rights movement on American society, examining the role of black leaders and activists in shaping the course of the movement. It explores the challenges and successes of the movement, including the role of the press and media in shaping public opinion.

The book concludes with an examination of the enduring legacy of the civil rights movement, including the ongoing struggle for racial justice in America. It provides a valuable resource for students, scholars, and anyone interested in understanding the history and impact of the civil rights movement.
imaginative and nuanced than has previously been assumed. America's past is full of politics as well as personal stories. ... teaches history the way it happened: real people with real stories. Through short narratives from political figures' political center in the South collapsed during the 1950s as opposition to the Supreme Court decision intensified. It ... against the ruling: how white men fell back on masculine pride by ostensibly protecting their wives and daughters from events, legal cases, social groups and movements, political and social concepts, cultural happenings, and other aspects ... of Education, the United States Supreme Court ruled that racial segregation in public schools was unconstitutional. When ... engineering, and political rancor. Numerous studies on various aspects of these issues have been written over the past 35 ... a backlash that widened hidden rifts in our society, rifts that divided along racial, class, and generational lines. And by Nixon's resignation, we find a national mood in stark contrast to the grand expectations of ten years earlier, one in which faith in our leaders and in the attainability of the American dream was greatly shaken. The Oxford History of the United States The Oxford History of the United States is the most respected multi-volume history of our nation. The series includes three Pulitzer Prize winners, a New York Times bestseller, and winners of the Bancroft and Parkman Prizes. The Atlantic Monthly has praised it as "the most distinguished series in American historical scholarship"; a series that "synthesizes a generation's worth of historical inquiry and knowledge into one literally state-of-the-art book." Conceived under the general editorship of C. Vann Woodward and Richard Hofstadter, and now under the editorship of David M. Kennedy, this renowned series blends social, political, economic, cultural, and diplomatic, and military history into coherent and vividly written narrative. Navy Priests is a compelling contribution to the rich tapestry of American religious life. Ross Malcommunal politics have played a crucial role in the struggle for black equality. Throughout the 1950s and 1960s, the African American community demanded that the courts intervene in education, housing, and employment. Along with the NAACP, they seized the opportunity to challenge segregation in public schools. The Brown v. Board of Education decision, which declared unconstitutional the segregation in public schools, was a landmark case in the civil rights movement. It marked a significant step towards ... the student protestors. Pratt's book is a valuable resource for anyone interested in understanding the complex political, social, and cultural dynamics that shaped this critical period in American history.
lives, you'll discover how our nation grew from a colonial project to an international superpower. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. The history of the American city is, in many ways, the history of the United States. Although rural traditions have also left their impact on the country, cities and urban living have been vital components of America for centuries, and an understanding of the urban experience is essential to comprehending America's past. America's Urban History is an engaging and accessible overview of the life of American cities, from Native American settlements before the arrival of Europeans to the present-day landscape of suburban sprawl, urban renewal, and a heavily urbanized population. The book provides readers with a rich chronological and thematic narrative, covering themes including: The role of cities in the European settlement of North America Cities and westward expansion Social reform in the industrialized cities The impact of the New Deal The growth of the suburbs The relationships between urban forms and social issues of race, class, and gender Crossing the evolving story of the American city with depth and insight, America's Urban History will be the first stop for all those seeking to explore the American urban experience. From the first incident of petty theft to modern media piracy, crime and punishment have been a part of every society. However, the structure and values of a particular society shape both the incidences of crime and the punishment of criminals. When the United States became an independent nation, politicians and civilians began the process of deciding which systems of punishment were appropriate for dealing with crimes that continue to this day. Crime and Punishment in America examines the development of crime and punishment in the United States from the criminal justice practices of American Indians and the influence of colonialism in the mistreatment of slaves, as well as such current criminal issues as the response to international terrorism. This work is a study of McCarthy's 1968 anti-Vietnam War presidential campaign. Publisher Fact Sheet This groundbreaking study analyzes the evolution of Southern Baptists' attitudes toward African Americans during a tumultuous period of change in the United States. Presents the author's definition of racism, arguing that it is a cultural phenomenon specific to Western regions and tracing its history while evaluating its potential to end
